

NEXUS Center has officially opened its doors in two locations in Nepal! | Weconnex AG

- 2016 09 14
- WECONNEX AG

On the 1st of September we celebrated the opening of our first [NEXUS Center](#) in Gochada, Chitwan. Muna Mahato, our operator in Gochada, has taken it upon herself together with the support of our local entrepreneur Guneshwar Mahato and our social mobilizers Bhima Kunwar and Laxmi Sunar to make NEXUS Center Gochada a success. In addition we have a new team member Marit Mathijsen who is overseeing operations for us in [Nepal](#) and is a great asset to the team.

Clean water from the NEXUS Center is delivered in disinfected jars or bottles to ensure that the water remains uncontaminated. It is essential that locals first buy their own jars and jerry cans before they can use them daily, by trading them in for clean full water jars or jerry cans.

To create awareness in Gochada for the new NEXUS Center, Muna attended a local festival where she not only donated 50 jars of water but also explained the benefits of drinking the clean filtered water. The NEXUS team wishes Muna lots of prosperity as this hard working 20 year old lady runs NEXUS Center Gochada, studies business management and is also responsible for helping her family financially.

Ten days later we opened our second NEXUS Center in Basanthapur, where we were lucky enough to have Lars Willi the CEO of Weconnex AG, initiator of this concept, be present for the official opening. Kamala Bhattari is responsible for our NEXUS Center in Basanthapur and besides being able to deliver clean water,

we are proud to announce that a fancy clothes shop will also open there shortly. A Hindu priest officially blessed NEXUS Center Basanthapur and the festive event attracted at least 150 to 200 visitors. We would also like to wish Kamala prosperity with her new job, as she has been solely responsible for raising her 7-year-old son since her husband has been working in Qatar for the past years. Reuniting them as a family could very well be the catalyst that NEXUS Center can provide for Kamala.

We are proud of all the NEXUS Center team members and we thank our sponsor [Aqua For All](#), [Dropforlife](#) and [REPIC](#) in believing in our dream and supporting us to make this happen.
